Chapter

Installing Visual TakeOff +

o install and run Visual TakeOff+ your computer must meet the following minimum requirements: a PC compatible computer running windows 98 or higher, a CD ROM drive and at least 10meg of space on your c: drive, (you may need more hard drive space as you begin to added detail take off to your estimates) and a USB port for use with the KeyLok.

When you insert your CD into the computer, it will automatically run on most computers. Select the "Browse CD" option on the screen that opened. If your

computer did not automatically open this window, browse the CD with "My Computer". You should see many files and directories on your Comput-Ability CD. Open the "Visual Take-Off" directory, and run "Setup".

*NOTE:

Your CD may have different files and/or directories than the image in this document.
